

METAL RANDOM PACKINGS

On the basis of our broad range of tower packings with different types and materials as well as our experience in thermal separation, we offer a solution to nearly all operation conditions and compositions of the gas- and / or liquid phase.

Upon request, we select the optimum packing for the particular problem or application as well as the optimum material and size.

(Carbon Steel, Stainless Steels, Aluminium, Copper, Nickel, Hastelloy, Incoloy, Inconel, Monel and others)

We also can supply other custom shapes, sizes and materials. Please inquire.

<p>Interpack[®]</p>		<p>10, 15, 20 mm</p>
<p>Cylindrical Rings</p>		<p>15-50 mm</p>
<p>VSP-Tower packings</p>		<p>25, 40, 50 mm</p>
<p>Top-Pak[®]</p>		<p>No. 2</p>

CERAMIC RANDOM PACKING RANDOM PACKINGS

On the basis of our broad range of tower packings with different types and materials as well as our experience in thermal separation processes, we offer a solution to nearly all operation conditions and compositions of the gas- and / or liquid phase. Upon request, we select the optimum packing for the particular problem or application as well as the optimum material and size.

Novalox[®]-Saddles		½", ¾", 1", 1½", 2", 3"
Berl-Saddles		10, 15, 25, 35, 50 mm
Pall[®]-Rings		25, 35, 50, 75, 80, 100 mm
Cylindrical Rings		3-200 mm
Porous tower packings		Different shapes and sizes
Special shapes		Different shapes and sizes
Laboraty packings		Different shapes and sizes
Transitional grid linings		Different shapes and sizes

PLASTIC RANDOM PACKINGS

On the basis of our broad range of tower packings with different types and materials as well as our experience in thermal separation, we offer a solution to nearly all operation conditions and compositions of the gas- and / or liquid phase.

Upon request, we select the optimum packing for the particular problem or application as well as the optimum material and size. (PE, PP, PVDF and others)

We also can supply other custom shapes, sizes and materials. Please inquire.

VSP-Tower packings		25, 50, 90 mm
Pall®-Rings		15, 25, 38, 50, 90 mm
Hackettes®		45, 90 mm
Novalox®-Saddles		1 ½", 2"
Igel®-Packings (Ciba-Geigy patent)		40 mm
